

### Year 3

- Expansion of the Extended Access service to 100% coverage across Bradford
- EA infrastructure used to address seasonal pressures with Pop-Up provision over Bank Holidays
- Working with the NAPC to introduce the concept of "Primary Care Home"
- EA and PCSS established as "business as usual"

### Year 2

- Start of the Bradford Extended Access service
- CCG QIPP Scheme member engagement
- Work with CCG on an optional QIPP+ prescribing scheme
- Input into ongoing Diabetes Pathway work and clinical leadership

### Year 4

- Formation of the Clinical Advisory Board (CAB) for all the Clinical Directors
- Extra resource added in the form of a COO to progress ideas with System partners
- Wide engagement carried on around a Primary Care Collaborative
- Work continued around a new Diabetes Pathway with support to the PCNs
- Recruitment of the Data Protection Officer for Bradford District & Craven

### Year 6

- Continue to work through COVID-19 with both remote and face 2 face appointments
- Doubled Mental Health capacity
- VTS Nurses have started training and completing blood clinics for Extended Access
- BCA Team has expanded with Dal Sharry-Khan and Emma Bascombe joining the team.
- Flu Bus was operational reaching nursing homes and hard to reach areas
- Extended Access contract continued which now includes Grief & Loss Counselling.

### Year 1

- All practices in Bradford become Shareholders
- Formal Articles of Association drawn up
- Move from Shadow Board to a fully Elected Board
- Taking our place at the Bradford Provider Alliance (BPA) table
- Taking on the Diabetes Contract from the CCG
- Start work with the BPA on the new Diabetes Pathway
- Launch Primary Care Streaming Service in the Emergency Department of BRI

### Year 5

- Adapted to COVID-19 – EA and PCSS continued to run throughout
- CAB membership widened to the full Bradford District & Craven footprint
- Worked with the PCNs and the CCG to establish "Red Hubs"
- Consolidation to one Red Hub when demand fell and introducing staff testing when needed
- Paediatrics Service piloted with the CCG, LCD and CHF using the EA infrastructure
- Engagement around potential developments to replace PCSS in the future
- Diabetes contract was handed back to the CCG so all available funding would be given to the PCNs
